

JSC Institute Giprostroymost – Saint Petersburg –

Leading company within Russian Federation regarding
bridge design and transport structures.

// 1968 since

// 6 countries
of presence

// > 2200 objects
implemented in Russia

ABOUT COMPANY

// ENGINEERING SCHOOL

Our own engineering design school, advanced math specialists plus structural mechanics.

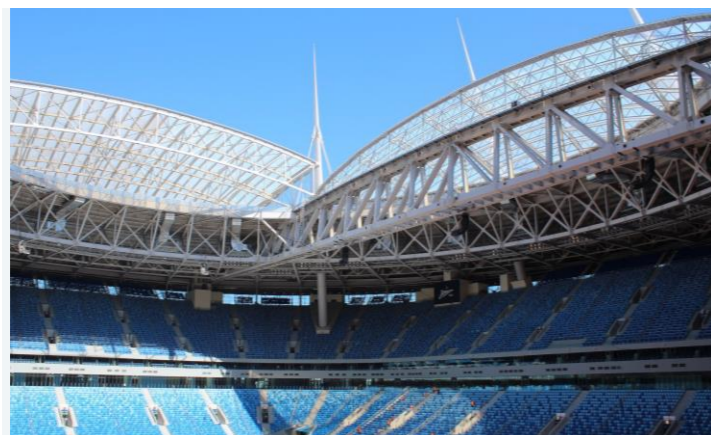

// APPROACH TO DESIGN

Innovative solutions regarding transportation construction, various combination of technological efficiency, economic effectiveness, and cozy architectural appearance.

// INTERNATIONAL COOPERATION

Global experience perusal in the bridge construction sphere, collaboration with international experts as well as experience exchange..

// HIGH-TECH SOLUTIONS

Development of individual auxiliary programs. Conception of detailed BIM models (3D Modeling).

COMPANY'S SPECIALIZATION

// DESIGN

- road bridges and railway bridges
- overpasses, flyovers and transport interchanges
- composite bridges, pedestrian bridges
- motorways and streets
- underground structures, buildings and facilities
- embankments and mooring piers
- foundations within difficult environment

// DEVELOPMENT

- tender documentation
- legal and technical paperwork
- design documentation
- technological solutions regarding nuclear and energy facilities protection
- certification plus roads inventory
- financial and economic justifications

// PREPARATION

- architectural conception of construction
- feasibility study and justification
- traffic management schemas
- technologies for constructing facilities
- SAC&D
- method statement completion
- construction arrangement projects

// FULFILLMENT

- general design
- transport modeling
- engineering and environmental survey
- environment study, engineering and aerodynamic analysis
- cost estimation and financial survey
- structures technical condition diagnostic and assessment
- technical supervision

COMPANY RESOURCE 2026

759

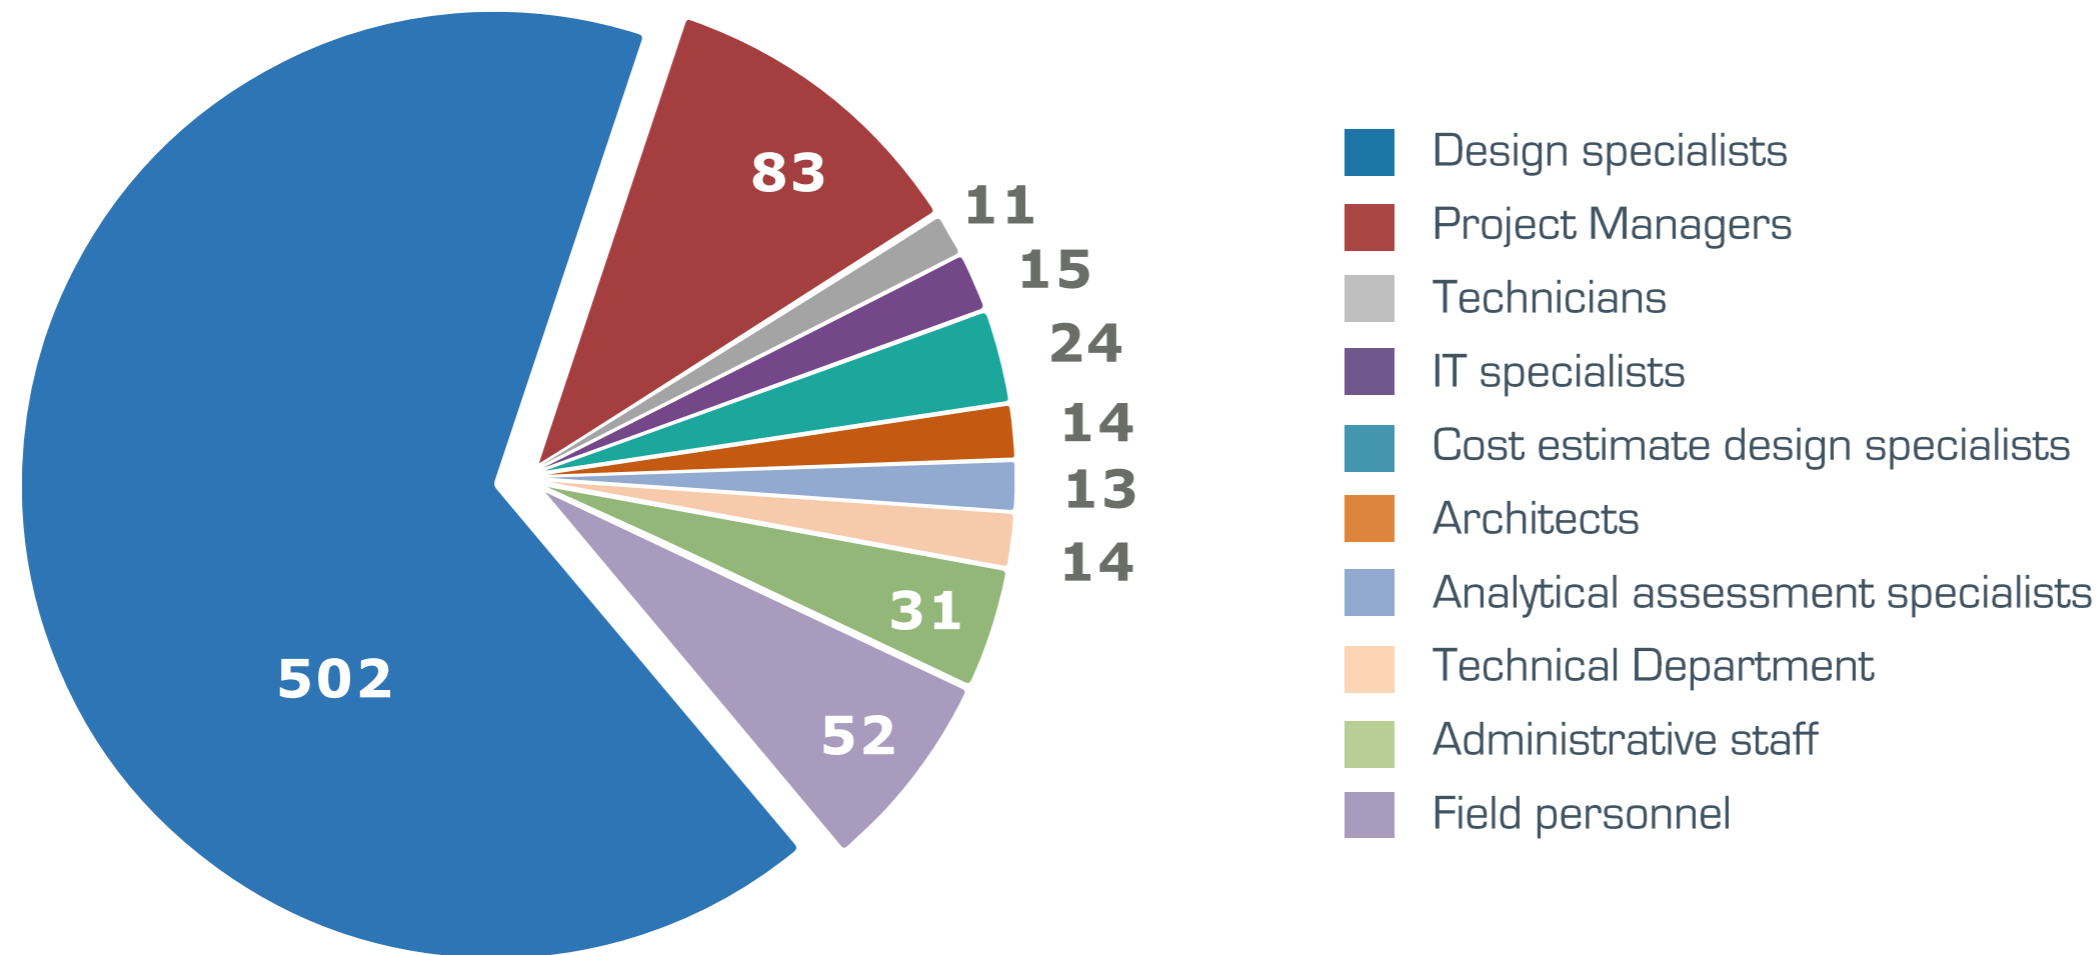

Total staff

708

Higher education

5

Candidates of science

Specialists of our company have been awarded by Honorary Letters and Commendations from Governor of Saint Petersburg, Governor of Primorskiy Territory and from Ministry of Transportation and Ministry of Regional Development of Russian Federation. Five specialists of our company are the Honorary Constructors.

LEGEND

A	Arch bridge	C	Civil Engineering
G	Girder bridge	R	Road
Cs	Cable-stayed bridge	F	Road Interchange
Eb	Extradosed bridge	T	Tunnel
Fb	Footbridge	E	Embankment, quay

CABLE-STAYED BRIDGES > 20

Bolshoy Obukhovskiy Bridge across the Neva River
(St. Petersburg, RF)

Russky Bridge across the Eastern Bosphorus,
(Vladivostok, RF)

Golden Bridge across the Golden Horn Bay,
(Vladivostok, RF)

Bridge across the Petrovsky Channe
(St. Petersburg, RF)

Bridge over the Moscow river near
Novozavodskaya street (Moscow, RF)

Bridge crossing over the Lena river (Yakutsk Region, RF)

EXTRADOSED BRIDGES > 3

South Bridge over the Daugava River (Riga, Latvia)

Bridge over Kuznetichka river (Archangelsk, RF)

The overpass on Dunaysky Prospekt (St. Petersburg, RF)

ARCH BRIDGES > 20

Crimean Bridge across the Kerch Strait, RF

Beliayevsky Bridge across the Okhta River
(St. Petersburg, RF)

Bridge across the Vuoksa River
(Leningrad Region, RF)

Railway American bridges across the Obvodny Canal
(St. Petersburg, RF)

Bridge across the Ishim River (Astana, Kazakhstan)

Bridge across the Irtysh River (Khanty-Mansiysk, RF)

GIRDER BRIDGES > 200

Bridge crossing over the Ob River (Surgut)

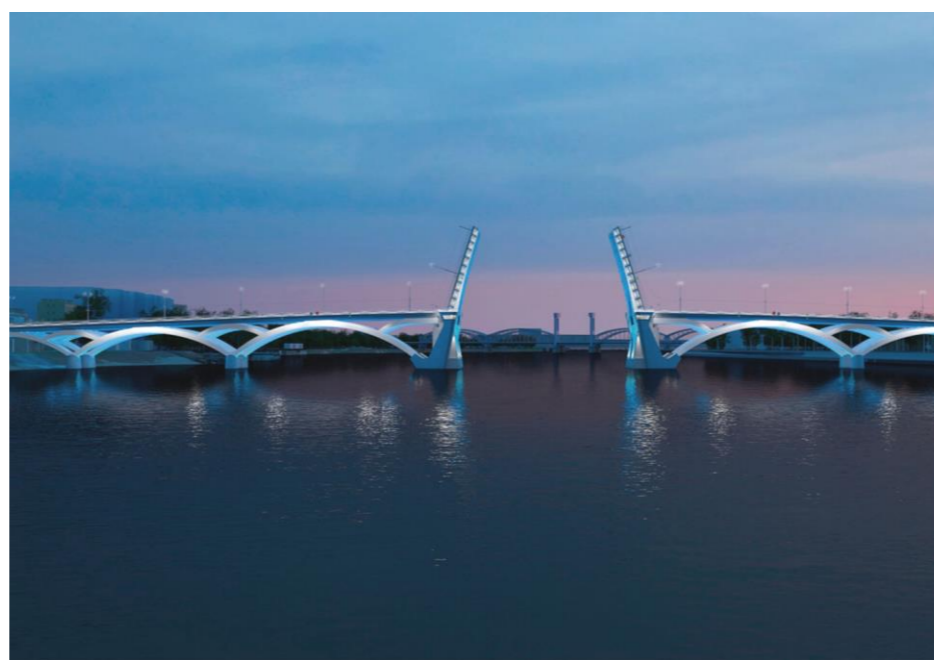

Bridge over the Volga River (Tatarstan, RF)

Bridge crossing over the Chusovaya River (Perm, RF)

Low bridge across the Amur Bay
(De Friz, RF)

Bolshoi Smolenskiy Bridge (St. Petersburg, RF)

Zapadny Bridge across the Volga River (Tver, RF)

ROADS > 80

Shirotnaya Highway Speedway (St. Petersburg, RF)

Ring Road over Khabarovsk City on 13-42 km (RF)

Motorway Adler Detour (Krasnodar Region, RF)

Central Ring Road, the Moscow Region,
1 st stage, section 1 (Moscow, RF)

Motorway along the Amur Bay (Vladivostok, RF)

Speedy motorway M-12 Vostok ((Tatarstan, RF)

TUNNELS > 25

Motorway tunnel (Vladivostok, RF)

Tunnel Moscow high-speed diameter (Moscow, RF)

Lefortovskiy tunnel (Moscow, RF)

Murinskiy tunnel (St. Petersburg, RF)

Volokalamsky tunnel (Moscow, RF)

Kanonersky tunnel (St. Petersburg, RF)

SPORTS FACILITIES > 5

Stadium FC Spartak (Moscow, RF)

Stadium Gazprom Arena (St. Petersburg, RF)

Martial arts sports complex (Samara, RF)

Indoor Cycling Track (Samara, RF)

Sports and recreation complex Volna (St. Petersburg, RF)

Parish of the Church in Honor of the Port Arthur Icon of the Holy Mother of God (Vladivostok, RF)

Multifunctional data Center on Leninsky Avenue (St. Petersburg, RF)

Launch complex at the Vostochny Cosmodrome (RF)

Yamal LNG (RF)

Railway station (Adler, Krasnodar Region, RF)

MFC Mosaic (Moscow, RF)

FOOTBRIDGES > 40

Underground passage near Birzhevoy Bridge on Mitnenskaya Embankment (St. Petersburg, RF)

Footbridge on Tallinskoe highway (St. Petersburg, RF)

Pedestrian crossing over Nagatinsky Zaton (Moscow, RF)

Cable-stayed footbridge (Tashkent, Uzbekistan)

Archway pedestrian crossing (Moscow, RF)

Footbridge on Chicherina Street in the town (Ussuriysk, Primorsky territory, RF)

EMBANKMENTS and QUAYS > 20

Piers, river ferries on the rivers Ufa, Belaya (Bashkortostan)

Water sports base in Primorsky district (St. Petersburg, RF)

Embankment named after the 62nd Army in the hero city (Volgograd, RF)

Embankment of the Volga river (Astrakhan, RF)

Embankment of river Dnepr and footbridge (Smolensk, RF)

Navigation pass C-2 in complex of flood protective structures (St. Petersburg RF)

JSC Institute Giprostroykost – Saint Petersburg (as a part of State Company NPS). Leading company within Russian Federation regarding bridge design and transport structures. Innovative solutions are being used in the whole projects, which are often innovative in the sphere of transportation construction. The result of our approach is unique structures, which combine technological competence, economic efficiency plus that expressive architectural outlook.
